ARRI Master Anamorphic			
The ARRI Master Anamorphic lenses are the result of a cooperation with ARRI's long-term lens partner Carl Zeiss. The new anamorphic lenses offer a unique optical performance, with optimized flare and bokeh as well as state-of -the art lens barrels featuring improved dust and water protection. All seven Master Anamorphic lenses (35, 40, 50, 60, 75, 100, and 135mm) are super color matched to other ARRI/ZEISS primes and ARRI/FUJINON zooms as well. They provide revolutionary new optical technology in anamorphic lenses for virtually no image breathing, no distortion and no anamorphic mumps (fat face effect). Their near telecentric optical design reduces color fringing and shading at the image corners. These are the first anamorphic lenses to be designed from the scratch for modern digital cameras, although they will work with analog film cameras as well. However, they benefit from the combination with ARRI ALEXA 4.3 cameras for outstanding overall image quality. ARRI Master Anamorphic lenses are optimized for aesthetic look and feature evenly illuminated oval out-of-focus highlights without any sharp edges due to the newly developed iris with 15 aperture blades. The lens barrel is based on the same reliable mechanics as the industry-renowned ARRI Master Prime lenses but with even better sealing against dust and humidity, the completely new focusing mechanism overcomes time-consuming mechanical readjustments on the set.

ARRI Master Prime

The ARRI Master Prime lenses realize a cinematographer's dream: Super 35 prime lenses that are both fast and have an optical performance surpassing that of all other primes in an extensive range of available focal lengths with virtually no image breathing. Master Primes are compatible with digital and film cameras. They create images of high resolution and high contrast while showing minimal flares and veiling glare. This is particularly important when shooting with digital cameras that have a high dynamic range, as excessive flare in the lens can diminish the maximum contrast range that is transmitted to the camera. Extremely reduced internal reflections at T 1.3 guarantee superb contrast in low light situations, seeing deeper into the shadows than any other lens before. At the same time the Master Primes offer great performance even with high key light/high contrast scenes, since sharpness, contrast, resolution and field illumination are all optimized throughout the complete T Stop range. All Master Primes are carefully color matched to each other and to the other lenses in the ARRI lens portfolio. While the focus scale can be reversed to switch from meters to feet, lenses listed here under meter are preset to show the LDS info in meters, and lenses listed under feet show LDS info in feet.

The Alura 15.5-45 and Alura 30-80 as well as the Master Primes, Master Macro 100 and LDS Ultra Primes are equipped with the Lens Data System (LDS). These lenses continually transmit their status to any LDS equipped camera, where the information can be displayed either on the video assist (film cameras), MON OUT or electronic viewfinder (ALEXAs) or on the Lens Data Display for Focus Puller (LDD-FP) for faster and smoother working on the set. The ALEXA family of cameras records the LDS information into metadata for more efficient VFX or 3D post production.
ARRI/ZEISS primes are manufactured to such close tolerances, that even without any special matching they are great for 3D shoots. Lenses that have the same letter code on the focus ring exhibit an even closer match.

ARRI Ultra 16

Like the Master Primes, the ARRI Ultra 16 lenses combine high speed with outstanding optical performance. With a widest stop of T1.3 they allow shooting in low or available light, so are easy on the lighting budget, create more natural looking images and provide the cinematic look including, where necessary, a shallow depth of field. They also allow focusing at very short distances (20 cm/8" for the 6 mm, 30 cm/12" for the 8 through 35 mm and 40 cm/16" for the 50 mm) and retain their high performance even at close focus. Equaled by no other Super 16 lens in optical performance, they join the other ARRI lenses in elevating the Super 16 image to its highest possible quality.
All nine Ultra 16 lenses (6, 8, 9.5, 12, 14, 18, 25, 35 & 50 mm) cover the full Super 16 format and are fully compatible with the optical quality, color balance and ergonomics of the other ARRI lenses.

ARRI/ZEISS primes are manufactured to such close tolerances, that even without any special matching they are great for 3D shoots. Lenses that have the same letter code on the focus ring exhibit an even closer match.

ARRI Ultra Wide Zoom

The new ARRI Ultra Wide Zoom UWZ 9.5-18/T2.9 is the first super wide-angle zoom lens for the professional cine market. With an unusually accommodating image circle of 33.7 mm, the UWZ has been designed for both existing and future generations of large-sensor digital cameras, incorporating patented, cutting-edge lens technologies that overcome known problems with previous wide-angle zooms. The optical performance of this new telecentric design is comparable to, or even exceeds, that of high-end wide-angle prime lenses. For maximum flexibility and cost efficiency on set, the UWZ can easily replace a complete range of wide-angle primes.

ARRI Alura Zoom

The ARRI Alura Zooms are a completely new family of modern Super 35 cine zooms that are opitimized for today's digital cameras but also compatible with film cameras. They combine the highest optical performance with a rugged housing, compact size and low weight at an affordable price. All Alura Zooms show high contrast, high resolution, low distortion and minimum breathing. They are color matched to all other ARRI/ZEISS and ARRI/FUJINON lenses and are manufactured to such close tolerances that even without any special matching they are great for 3D shoots.

The Alura 15.5-45 and Alura 30-80 as well as the Master Primes, Master Macro 100 and LDS Ultra Primes are equipped with the Lens Data System (LDS). These lenses continually transmit their status to any LDS equipped camera, where the information can be displayed either on the video assist (film cameras), MON OUT or electronic viewfinder (ALEXAs) or on the Lens Data Display for Focus Puller (LDD-FP) for faster and smoother working on the set. The ALEXA family of cameras records the LDS information into metadata for more efficient VFX or 3D post production.

General Sale and Delivery Terms and Conditions for Merchants(1)

1. General; Scope

The terms and conditions delineated herein shall be the sole terms and conditions which apply to all of ARRI's current and future business transactions. Unless ARRI has approved of such in writing, any terms or conditions which conflict with, deviate from or modify the terms and conditions delineated herein shall not be binding on ARRI irrespective of whether ARRI had prior notice of such terms or conditions. ARRI hereby expressly objects to any such conflicting, deviating or modified terms or conditions.

2. Contract Formation

2.1 Any offers made by ARRI shall be without obligation and subject to change without notice provided that the parties have not agreed to a lock-up period.

2.2 The customer is bound to its order for a period of four weeks after its receipt by ARRI. A contract is deemed to exist upon the customer's receipt of ARRI's written confirmation regarding the order or the effective delivery of the applicable goods to the customer pursuant to the terms hereof.

2.3 The scope and type of delivery for an order shall be established solely through ARRI's written confirmation relating to such order. Any errors or omissions in ARRI's sales prospectus, pricelists, offer documents or other related documentation may be amended without ARRI incurring any liability for damages or compensation in relation to such errors or omissions.

3. Payment, Set-Off, Withholding

3.1 The purchase price for the contract shall be that price which is specified by ARRI for such contract and shall apply ex works, exclusive of any value-added tax; if the price is not indicated, the pricelist then in effect shall apply. If the sale has occurred through delivery to a place other than the place of performance (at the customer's request), any costs incurred for packaging, shipping, freight, customs or other related costs will be charged separately. If the customer fails to accept delivery when tendered by ARRI, it must nevertheless make payment.

3.2 In the event that the manufacturing costs for the contracted goods (including, but not limited to, wages, salaries, materials or production costs) rise subsequent to formation of the contract, ARRI shall have the right to increase the purchase price in accordance therewith.

3.3 Invoices from ARRI are due upon ARRI making the goods available to the customer and are payable without deductions within 10 days of the issuance thereof. Upon a default in payment, any overdue amounts will accrue interest at a rate of 8% above the basic interest rate. ARRI reserves its right to assert any further claims regarding damages resulting from a default.

3.4 The customer can offset its payments only if its counterclaim thereto have been judicially sustained or recognized by a declaratory judgment. A right to withholding shall only apply to counterclaims arising specifically from the contract which is the subject of such withholding.

4. Delivery

4.1 The dates for delivery and/or the making available of the goods are not binding unless a date for such has been agreed to in writing by ARRI.

4.2 ARRI is entitled to carry out advance and/or partial deliveries of the goods.

4.3 In the event that ARRI is unable to deliver or make the goods available to the customer due to events of force majeure lasting for a period of three months or more, ARRI's obligation to deliver or make the goods available shall be deemed extinguished in its entirety.

4.4 ARRI shall be entitled to postpone delivery or availability of the goods for the entire duration of the force majeure events.

4.5 Events of force majeure shall be deemed to be any events which are beyond ARRI's control and which make delivery impossible or unreason-ably difficult, including, for example, strikes, lawful lockouts, war, import or export prohibitions, scarcity of energy supplies or raw materials, or the delayed delivery to ARRI of goods required for the performance of its obligations hereunder for reasons beyond ARRI's control. If ARRI is released from its obligations as described in Section 4.3 above, the customer shall be entitled to rescind the applicable contract. Compensation for damages for non-performance can be claimed by the customer only if the default in delivery is due to ARRI's gross negligence or is intentionally caused by ARRI.

5. Transfer of Risk

5.1 The risk of loss or damage to the goods passes to the buyer as soon as ARRI has dispatched the goods from its premises (i.e., plant, factory or warehouse) or upon the surrendering of the goods to the applicable carrier or to the customer itself, as the case may be. The above shall also apply in the event that ARRI serves as the carrier for the goods.5.2 If the forwarding or collection of the goods is delayed due to reasons attributable to the customer, the risk of loss shall be transferred to the customer upon the readiness of the

goods for dispatch.

6. Defective Goods

6.1 The customer must inspect the delivered goods immediately upon its receipt of such. The customer must notify ARRI in writing of any apparent defects within one week of the goods' receipt. ARRI must be notified of hidden defects in writing within two weeks of their emergence but in no event later than one year after delivery of such goods. In the event that the customer fails to meet the aforementioned notification obligations, the goods shall be deemed to have been accepted and the rights set forth in Sections 6.2 and 6.3 below shall not be in effect.

6.2 In the event that the customer has notified ARRI of defects in a timely manner and is thus eligible to make a claim for re-performance, ARRI shall have the right, at its own cost, either to remedy the defect or to redeliver conforming goods.

6.3 If ARRI twice fails to remedy a defect or if ARRI is otherwise unable to accomplish ist re-performance obligation or fails to do so within a time period reasonably set forth by the customer, the customer shall be entitled to reduce the purchase price under the contract or to cancel the contract. Instead of seeking performance, the customer can make a claim for damages or for compensation for expenses. However, if the customer elects to rescind the contract it shall have no right to make any claim for damages with respect to the defective goods.

6.4 Provided that ARRI has not acted fraudulently, any claims of the customer regarding the goods shall become void and unenforceable one year after delivery of the applicable goods.

6.5 The prescription period of one year in Section 6.4 above shall be replaced by a prescription period of two years for goods from the product range „Light" of ARRI that are distributed under the brand „ARRI".

7. Liability

7.1 ARRI shall be liable for any damage hereunder caused by it intentionally or caused by ist gross negligence.

7.2 In the event of simple negligence by ARRI, ARRI shall be liable only for ordinary and foreseeable damage arising from the contract, and only to the extent that ARRI has breached material contractual obligations. Further, in the event of simple negligence by ARRI, ARRI shall be liable for personal injury and/or healthrelated damage attributable to ARRI.

7.3 ARRI shall not be liable for consequential damages and unforeseen damages (including consequential damages resulting from defective goods) as well as loss of profits in the event it has acted with simple negligence.

7.4 ARRI shall be subject to no liability beyond that which is delineated in this Section 7.

7.5 To the extent that ARRI's liability is excluded or limited, such exclusion or limitation shall apply to any persons or entities employed by ARRI in the performance of ist contractual obligations.

7.6 The limitations of liability delineated herein shall not apply to any legally prescribed strict liability, in particular any such strict liability arising from laws regarding guarantees or product warranties.

8. Retention of Title

8.1 Ownership of the delivered goods shall remain with ARRI until it has received full payment for such goods. Title to the goods shall first pass to the customer upon ARRI's receipt of all payments which are due under the current applicable contract.

8.2 Prior to obtaining title to the goods, the customer is not entitled to pledge, to assign by way of security, to process or to alter the goods. The customer is, however, authorized to sell the goods to third parties in the ordinary course of business unless a non-assignability agreement regarding the consideration exists between the customer and the third party. If a third party acquires an interest in the goods through a resale to such party, the customer agrees to assign to ARRI all of ist correlating rights and claims against such third party. ARRI hereby accepts such assignment.

8.3 Any combination, amalgamation and/or processing of the goods (sections 947, 948 and 950 BGB [German Civil Code]) shall be deemed to have been made on behalf of ARRI. ARRI shall acquire title to the resulting product in the ratio of the invoiced value of the goods and services provided by ARRI to the total invoiced value of the resulting product. If the goods have been re-sold to a third party, the assignment of rights and claims performed in accordance with Section 8.2 above shall be valid solely up to the amount of the invoiced value of goods and services provided by ARRI.

8.4 Upon a default in payment by the customer, ARRI has the right to disclose to any applicable third party that it holds an interest in the goods pursuant to the assignment delineated above and to assert any of ist claims directly. The customer is obligated to provide and deliver to ARRI all documentation required for the assertion of such claims. The customer must also make available to ARRI, completely and in a timely fashion, all information about any events that might affect the obligations described above.

Streik, rechtmäßige Aussperrung, Krieg, Ein- und Ausfuhrverbote, Energie- und Rohstoffmangel und von ARRI nicht zu vertretende, nicht rechtzeitige Selbstlieferung. Wird ARRI von seiner Lieferpflicht frei, kann der Kunde vom Vertrag zurücktreten. Er ist berechtigt, die Ware im ordentlichen Geschäftsgang an Dritte zu veräußern, es sei denn, es besteht für die Gegenleistung ein Abtretungsverbot zwischen dem Kunden und dem Dritten. Erwirbt ein Dritter Rechte an dem Sicherungsgut, so tritt der Kunde schon jetzt sämtliche hierdurch entstehenden Rechte an ARRI ab, die durch die Weiterveräußerung gegen den Dritten erwachsen. ARRI nimmt die Abtretung an.

8.3 Eine Verbindung, Vermischung oder Verarbeitung des Vertragsgegenstandes (§§ 947, 948 und 950 BGB) gilt als im Auftrag von ARRI erfolgt. ARRI erwirbt das Eigentum an der hergestellten Sache im Verhältnis des Rechnungswertes der eigenen Leistung zum Gesamtrechnungswert der hergestellten Sache. Im Falle der Weiterveräußerung gilt die Abtretung der Forderung aus dem Weiterverkauf entsprechend Ziffer 8.2 nur bis zur Höhe des Rechnungswertes der von ARRI erbrachten Leistung.

8.4 Bei Verzug des Kunden kann ARRI Sicherungsrechte offen legen und alle Rechte selbst geltend machen. Der Kunde muss ARRI alle Unterlagen zur Geltendmachung aushändigen sowie umfassend und rechtzeitig von jedem obige Verpflichtungen betreffenden Vorgang Auskunft erteilen.
